**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

### **DETAILED ACTION**

This Non-Final Office Action is responsive to the communication received November 15, 2005. Claims 32-34 are under examination. Claims 30, 31 and 35-37 are withdrawn from consideration.

#### ***Election/Restrictions***

Applicants' election of Group II, claims 32-34, and the species comprising SEQ ID NO:3 is acknowledged. Applicant argues the restriction requirement is improper because claims 35-37 can be searched without creating a serious burden. The Examiner respectfully submits that the rejoinder of claims 35-37 would create a serious burden since these claims are drawn to a method that involves unique steps, process and reagents not required by elected Group II. The examination of Group III would also involve a separate enablement analysis. Accordingly, rejoinder of claims 35-37 would create a serious burden. The restriction requirement is therefore made final.

#### ***Specification***

The specification is objected to for failing to cross-note application serial number 08/817,441 by patent number and issue date. The following amendment to the first line of the specification is suggested: "This application is a continuation of application serial number 08/817,441, now U.S. Patent Number 6,399,294 issued June 4, 2002."

#### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application

Art Unit: 1648

claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 32-34 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 4 and 7-9 ("patent claims") of U. S. Patent No. 6,399,294. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 32-34 are only distinguished from the patent claims by a detecting reagent. At the time this application was filed, it would have been obvious to one of ordinary skill in the art to arrange the diagnostic peptide of into a kit comprising a detecting reagent. Claims 32-34 are therefore rejected under the non-statutory doctrine of obviousness-type double patenting.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy M. Brown whose telephone number is (571) 272-0773. The examiner can normally be reached on Monday - Friday, 8am - 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Housel can be reached on (571) 272-0902. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
